Hosting location

Permission levels

Full Control (f):

Users with complete control over the site. They can manage permissions, create, edit, and delete content.

Approve (a):

Users with the ability to approve items, making them visible to others.

Design (d):

Users with design-level permissions, allowing them to create and edit lists and libraries, but without full control

Manage Hierarchy (m):

Users with permission to manage site structure, but not necessarily content.

Edit (e): Users with permission to edit existing content, but without the ability to manage site settings.

Restricted Read (rr):

Limited read access to specific areas or items.

Contribute (c):

Users can add, edit, and delete items within existing lists and libraries, but can't alter site structure.

View only (v):

Users can only view content and cannot make changes.

Read (r)
Users can view items and pages but cannot edit or add new content.

Records Center Web Service Submitters (rc): Users with permissions to submit content to a Records Center via web services.

Restricted Interfaces for Translation (tr): Users with restricted interfaces for translation-related tasks.

Example permission groups

LOCAL_IPRS_AL_rcs CLOUD_IPRS_HCS_d CLOUD_IPRS_IT_f
